

PROSET.

IPS CORPORATION

VERSATILE & RELIABLE FIRESTOPPING

Firestop Penetration
Solutions for Multi-Story
Buildings

PROTECTING BUILDINGS AND BOTTOM LINES

ProSet® firestop solutions are suitable for plumbing, electrical, mechanical, and fire sprinkler applications. The comprehensive product line encompasses all major construction systems and pipe variations and can be completely customized to fit your exact specifications. Waterproofing technology is also available for a wide range of ProSet products.

As the industry's first firestop to meet UL and ASTM fire safety standards, ProSet firestop penetrators are backed by 40+ years of performance. Today's ProSet line meets or exceeds all building and safety codes and outperforms competitive metallic and non-metallic products.

BENEFITS

- Reduces material costs
- Simplified installation cuts job time and labor costs
- Streamlines engineering drawings and design layouts
- Products available for fireproof, smokeproof and waterproof applications
- Customizable sleeves and fittings are compatible with other drains and fixtures

POTENTIAL APPLICATIONS

- Multi-story hotels
- Condominiums
- Apartments
- Dormitories
- Hospitals

TECHNICAL SPECS

- Fabricated from lightweight PVC
- Enables pipe expansion and contraction
- Outperforms metallic and other non-metallic products
- Versatile product adapts to unique applications, including swimming pool inlets/outlets

CERTIFICATIONS

- Complies with UL 1479 and ASTM E-814 standards
- Meets or exceeds all building and safety codes

INDUSTRY-TESTED FIRESTOP SYSTEMS

ProSet is available in all standard pipe diameters and a wide variety of fixture types, such as water closets, tubs, shower and floor drains, and lavatories. The all-encompassing product line includes penetrations for plumbing, electrical, mechanical and fire sprinkler applications.

Cast-in-Place

Fire-rated sleeve assemblies designed to create a void in the cement pour to allow for plumbing, mechanical, & electrical penetrations.

Cored Hole

Drop-in fire-rated sleeve assemblies designed to fit into plumbing, mechanical, & electrical penetrations in pre-cast construction.

Corrugated Metal

Fire-rated sleeve assemblies designed to create a void in the cement pour to allow for plumbing, mechanical, & electrical penetrations in corrugated metal applications.

Water Guard

Water Guard fittings provide an easy and reliable waterproofing solution for a wide range of ProSet systems.

Plumbing openings

ProSet offers firestop solutions for a range of openings, including water closets, showers, tubs, drains and more.

LET US HELP WITH YOUR NEXT PROJECT

While ProSet firestop products are designed for easy use and installation, our experts are here to assist with unique design challenges or answer any questions you may have – your project’s success is our success!
